DIGI Kft., the Hungarian subsidiary of the Company, launches mobile telephony services in Hungary

27 May 2019

The Company would like to inform its shareholders and the market that on 27 May 2019, DIGI Kft., the Company's Hungarian subsidiary ("**DIGI HU**"), launches mobile telephony services through its own network. The launch comes after a four-year process of investment, planning and implementation.

Following the launch, the services portfolio of DIGI HU will include fixed telecommunications services (cable television, fixed internet and telephony) and mobile telecommunications services (mobile telephony and data), as well as satellite television (direct to home - DTH).

DIGI HU's network will use the 4G standard (but will allow use of the 2G standard for voice services, exclusively for existing compatible phones). DIGI HU also introduces two free 4G features, which will bring great quality for voice service on compatible terminals: VoLTE (4G/LTE Voice) and VoWiFi (voice over WiFi) (available to Romanian DIGI Mobil clients since 2017).

DIGI HU is planning to further develop its mobile communications network and services in Hungary, with coverage expanding in several stages. In accordance with the Company's declared strategy, DIGI HU also intends to develop 5G offerings in the future.

For details regarding the reports, please access the official websites designated of Digi:
www.digi-communications.ro (Investor Relations Section).

About Digi Communications NV

Digi is the parent holding company of RCS & RDS, a leading provider of pay TV and telecommunications services in Romania and Hungary. In addition, RCS & RDS provides mobile services as an MVNO to the large Romanian communities living in Spain and Italy.
