

Digi Communications NV

announces a correction of clerical errors

by Amending the Q1 2022 Financial Report

18 May 2022

Digi Communications N.V. ("Digi" or the "Company") would like to inform the market and its investors that, the Q1 2022 Financial Report was amended in order to correct the following clerical errors:

1. In the English version of the Q1 2022 Financial report, at page 21, Under the line "*Condensed Consolidated Statement of Comprehensive Income*", in the original version of the Q1 2022 Financial Report we presented the description pertaining to 'Net profit attributable to owners' under the line 'Net profit Attributable to non-controlling interests' and vice-versa. In the amended Q1 2022 Financial Report we have corrected the clerical error by reversing the description to the correct lines.
2. In the English version of the Q1 2022 Financial report, at page 23, Under the line "*Condensed Consolidated Statement of Changes in Equity*": the figure representing the movement in 'Translation reserves' was presented in the 'Revaluation reserves' column and the figure representing the movement in 'Revaluation reserves' was presented in the 'Fair value reserves' column, also the 'Total' lines had to be updated. Practically both figures were erroneously shifted to the right, and in the process also the 'Total' lines were affected. In the amended Q1 2022 Financial Report we have corrected this clerical error.

For more details, please see the amended Q1 2022 Financial Report by accessing the link below:
