

Digi Communications N.V.

Announces the results of the auction organised by the Portuguese Authority for Telecommunications

28 October 2021

The Company would like to inform the market and its investors that on October, 27, 2021, the Portuguese Authority for Telecommunications (**ANACOM**) finalised the auction which began on December 22, 2020, for the allocation of the frequency user rights in the 700 MHz, 900 MHz, 1800 MHz, 2.1 GHz, 2.6 GHz and 3.6 GHz bands.

ANACOM designated the Group's Portuguese subsidiary, Dixarobil Telecom, Sociedade Unipessoal, Lda. (**Dixarobil**) as winner of the frequency user rights in the 900 MHz (2x5 MHz), 1800 MHz (2x5 MHz), 2.6 GHz (2x5 MHz FDD and 25 MHz TDD), 3.6 GHz (40MHz) bands. The total price of the frequency user rights is EUR 67.34 million.

The user rights will be finally allotted through a decision to be taken by ANACOM's Board of Directors, in the following period.

The Company welcomes ANACOM's decision which will allow the Group to expand its business on the Portuguese market, in order to provide high quality, affordable telecommunication services, based on the latest technologies.

About Digi Communications N.V.

We are a European leader in geographically-focused telecommunication solutions, based on the number of revenue generating units ("RGUs") and a leading provider of telecommunication services in Romania and Hungary, having significant operations in Spain and being present also in Italy.
